FOR IMMEDIATE RELEASE

IMPACT NETWORKING RAISES \$3,600 FOR LATINO COMMUNITY DEVELOPMENT EVENT

INDIANAPOLIS—November 20, 2015– The Impact Networking Indianapolis branch found an innovative way to use their annual Technology Showcase to benefit their community this year. They incorporated a Silent Auction into the event, which raised \$3,600 for one of their charitable organizations, the Latino Community Development Center (LCD). The donations will go towards the LCD’s annual Santa Comes to Town event which provides medical tests, dental screenings, toys, giveaways and other activities for families in need in the Indianapolis community.

Some of the Silent Auction packages included a trip for two with airfare to Costa Rica; an official NFL football signed by Andrew Luck, an NFL quarterback from the Indianapolis Colts; a two-night stay at the Blue Chip Casino with a spa package and steak dinner included, and more. Each Silent Auction item was raised and donated by Impact Networking employees, clients and vendors.

‘I am incredibly happy with the news of how much we raised for Santa Comes to Town,’ Impact General Manager and Partner, Chris Zvirbulis said. “We were able to raise money and awareness about the event and the organization.”

Impact Networking hosts multiple technology showcases throughout the year to bring out local business owners to experience Impact Networking’s latest technology, as well as introduce them to the company and services as a whole. Impact Networking continues to collect donations for the event and will have volunteers at Santa Comes to Town event on December 19th.

For more information on how you can donate, visit the Latino Community Development website at <http://latinoindiana.org>, or call the office at (317) 258-3937.

About Impact Networking

Impact is a fierce competitor in the Business Process Automation space. Founded in 1999, Impact employs over 220 people at its 11 Midwest locations. Our Account Managers and Consultants interact with Directors and C-Level stakeholders to assess the role of information and document workflow in the enterprise. Utilizing our in-house expert teams, we implement strategic, cost-effective and streamlined solutions.
